

send()

Send a message on a Socket.

```
int bytesSent = send(clientFd, response.c_str(), response.size(), 0);

if (bytesSent == -1)
{
    if (errno != EAGAIN && errno != EWOULDBLOCK)
    {
        // Real error
        close(clientFd);
    }
}
```
