

HTTP (webserv)

HTTP (Hypertext Transfer Protocol) is a request-response protocol where: The client (web browser) sends a request, the server (webserv) sends back a response, communication is text-based and human-readable, and the communication is stateless.

It's part of the Internet Protocol Suite (TCP/IP), under the Application Layer.

Examples

Minimal request

```
GET /index.html HTTP/1.1\r\n
Host: localhost:8080\r\n
Connection: keep-alive\r\n
\r\n
```

Minimal response

```
HTTP/1.1 200 OK\r\n
Content-Type: text/html\r\n
Content-Length: 41\r\n
\r\n
<html><body><h1>Hello World!</h1></body></html>
```

Testing HTTP with telnet

```
telnet localhost 8080
Trying 127.0.0.1...
Connected to localhost.
GET /index.html HTTP/1.1
Host: localhost

# Response comes here
```
